EMALAHLENI MUNICIPALITY

APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements year ended 30 June 2019, which are set out on pages 1 to 106 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2020 and am satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

The annual financial statements were prepared on the going concern basis.

VC Makedama
Municipal Manager

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1. ACCOUNTING PRINCIPLES AND POLICIES APPLIED IN THE FINANCIAL STATEMENTS

1.1. BASIS OF PREPARATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The annual financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – March 2012) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

Assets, liabilities, revenue and expenses have not been offset except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

In terms of Directive 7: "The Application of Deemed Cost on the Adoption of Standards of GRAP" issued by the Accounting Standards Board, the Municipality applied deemed cost to Investment Property, Property, Plant and Equipment and Intangible where the acquisition cost of an asset could not be determined.

1.2. PRESENTATION CURRENCY

Amounts reflected in the financial statements are in South African Rand and at actual values. Financial values are rounded to the nearest one Rand.

1.3. GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.4. COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed. Where material accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.5. AMENDED DISCLOSURE POLICY

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the annual financial statements. The principal amendments to matters disclosed in the current financial statements include errors.

1.6. MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the annual financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

1.7. PRESENTATION OF BUDGET INFORMATION

The presentation of budget information is prepared in accordance with GRAP 24 and based on the Municipal Budget and Reporting Regulations format. The comparison of budget and actual amounts are disclosed as separate additional financial statements, namely Statements of comparison of budget and actual amounts.

Budget information is presented on the accrual basis and is based on the same period as the actual amounts, i.e. 1 July 2019 to 30 June 2019. The budget information is therefore on a comparable basis to the actual amounts.

The comparable information includes the following:

- the approved and final budget amounts;
- actual amounts and final budget amounts;

Explanations for differences between the approved and final budget are included in the Statements of Comparison of Budget and Actual Amounts.

Explanations for material differences between the final budget amounts and actual amounts are included in the Statements of Comparison of Budget and Actual Amounts. Material differences are being defined by Management as 10% of a specific line-item with a minimum of R1 million.

The disclosure of comparative information in respect of the previous period is not required in terms of GRAP 24.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.8. STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

GRAP 18 Segment Reporting is effective from 1 April 2015. The implementation of GRAP 18 is delayed, in terms of Directive 5, for municipalities for the 2017/18 financial year. The implementation date of GRAP 18 is 1 April 2020

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the Municipality:

Standard	Description	Effective Date
GRAP 20 (Original – June 2011)	<p>Related Party Disclosure</p> <p>The objective of this Standard is to ensure that a Municipality's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.</p> <p>The Municipality resolved to adopt the disclosure requirements as per GRAP 20. The information is therefore included in the financial statements.</p>	1 April 2019
GRAP 32 (Original – Aug 2013)	<p>Service Concession Arrangements: Grantor</p> <p>The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public sector entity.</p> <p>No such transactions or events are expected in the foreseeable future.</p>	1 April 2019
GRAP 34 (Revised – April 2019)	<p>Separate Financial Statements</p> <p>The objective of this Standards is to prescribe the accounting and disclosure requirements in controlled entities, joint ventures and associates when an entity prepares separate financial statements.</p> <p>No significant impact expected as no such transactions or events are expected in the foreseeable future</p>	Unknown

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

GRAP 35 (Revised – April 2019)	Consolidated Financial Statements The objective of this Standard is to establish principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. No significant impact expected as no such transactions or events are expected in the foreseeable future.	Unknown
GRAP 36 (Revised – April 2019)	Investments in Associates and Joint Ventures The objective of this Standard is to prescribe the accounting for investments in associates and joint ventures and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. No significant impact expected as no such transactions or events are expected in the foreseeable future.	Unknown
GRAP 37 (Revised – April 2019)	Joint Arrangements The objective of this Standard is to establish principles for financial reporting by entities that have an interest in arrangements that are controlled jointly (i.e. joint arrangements) No significant impact expected as no such transactions or events are expected in the foreseeable future.	Unknown
GRAP 38 (Revised - April 2019)	Disclosure of Interest in Other Entities The objective of this Standard is to require an entity to disclose information that enables users of its financial statements to evaluate: a) the nature of, and risks associated with, its interest in controlled entities unconsolidated controlled entities, joint arrangements and associates, and structure entities that are not consolidated; and b) the effects of those interests on its financial position, financial performance and cash flows. No significant impact expected as no such transactions or events are expected in the foreseeable future.	Unknown

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

IGRAP 17	<p>Service Concessions Arrangements Where a Grantor Controls a Significant Residual Interest in a Asset</p> <p>This interpretation of the Standards provides guidance to the grantor where it has entered into a service concession arrangement, but only controls a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease</p> <p>No such transactions or events are expected in the foreseeable future.</p>	Unknown
GRAP 104 (Revised – April 2019)	<p>Financial Instruments</p> <p>The objective of this Standard is to establish principles for recognising, measuring, presenting and disclosing financial instruments.</p> <p>No significant impact is expected as the Municipality's current treatment is already in line with the Standards treatment.</p>	Unknown
GRAP 108 (Original – Sept 2013)	<p>Statutory Receivables</p> <p>The objective of this Standard is to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.</p> <p>The Municipality has resolved to adopt the principles as set out in GRAP 108 to formulate its own accounting policy</p>	1 April 2019
GRAP 109	<p>Accounting by Principles and Agents</p> <p>The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement.</p> <p>No significant impact is expected as the Municipality's current treatment is already in line with the Standards treatment.</p>	1 April 2019
GRAP 110	<p>Living and non-living resources</p> <p>The objective of this Standard is prescribe the recognition, measurement, presentation and disclosure requirements for living resources; and disclosure requirements for non-living resources.</p>	1 April 2020

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	No significant impact expected as no such transactions or events are expected in the foreseeable future.	
IGRAP 18	Recognition and Derecognition of Land The Interpretation provide guidance on when an entity should recognise and derecognise land as an asset in its financial statements. The municipality needs to assess whether there are any changes to binding agreements that may impact its assessment of control.	1 April 2019
IGRAP 19	Liabilities to Pay Levies The Interpretation provides guidance on the accounting for levies in the financial statements of the entity that is paying the levy. It clarifies when entities need to recognise a liability to pay a levy that is accounted for in accordance with GRAP 19. No significant impact is expected as the Municipality's current treatment is already in line with the Interpretation.	1 April 2019

These standards, amendments and interpretations will not have a significant impact on the Municipality once implemented.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.9. LEASES

1.9.1 Municipality as Lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the Municipality. Property, plant and equipment or intangible assets (excluding licensing agreements for such items as motion picture films, video recordings, plays, manuscripts, patents and copyrights) subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the Municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant and equipment, investment property or intangibles assets. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to de-recognition of financial instruments are applied to lease payables.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined expenses and actual payments made will give rise to a liability. The Municipality recognises the aggregate benefit of incentives as a reduction of rental expense over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

1.9.2 Municipality as Lessor

Under a finance lease, the Municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the Municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to de-recognition and impairment of financial instruments are applied to lease receivables.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease revenue is recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined revenue and actual payments received will give rise to an asset. The Municipality recognises the aggregate cost of incentives as a reduction of rental revenue over the lease term, on a straight-line basis unless another systematic basis is representative of the time pattern over which the benefit of the leased asset is diminished.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.10. UNSPENT CONDITIONAL GOVERNMENT GRANTS AND RECEIPTS

Conditional government grants are subject to specific conditions. If these specific conditions are not met, the monies received are repayable.

Unspent conditional grants are financial liabilities that are separately reflected on the Statement of Financial Position. They represent unspent government grants, subsidies and contributions from the public.

This liability always has to be cash-backed. The following provisions are set for the creation and utilisation of this creditor:

- Unspent conditional grants are recognised as a liability when the grant is received.
- When grant conditions are met an amount equal to the conditions met are transferred to revenue in the Statement of Financial Performance.
- The cash which backs up the creditor is invested as individual investment or part of the general investments of the Municipality until it is utilised.
- Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor. If it is the Municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

1.11. UNPAID CONDITIONAL GOVERNMENT GRANTS AND RECEIPTS

Unpaid conditional grants are assets in terms of the Framework that are separately reflected on the Statement of Financial Position. The asset is recognised when the Municipality has an enforceable right to receive the grant or if it is virtually certain that it will be received based on that grant conditions have been met. They represent unpaid government grants, subsidies and contributions from the public.

The following provisions are set for the creation and utilisation of grant receivables:

- Unpaid conditional grants are recognised as an asset when the grant is receivable.

1.12. PROVISIONS

Provisions are recognised when the Municipality has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where an inflow of economic benefits or service potential is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Municipality has a detailed formal plan for the restructuring identifying at least:
 - the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The Municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is de-recognised.

1.13. EMPLOYEE BENEFITS

Defined contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

Defined benefit plans are post-employment benefit plans other than defined contribution plans.

1.13.1 Post-Retirement Medical Obligations

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 60% as contribution and the remaining 40% are paid by the members. For retired members, Council pays 70% as contribution and the remaining 30% are paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined in accordance with GRAP 25 – Employee benefits (using a discount rate applicable to high quality government bonds). The plan is unfunded.

These contributions are charged to the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability was calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation. Payments made by the Municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

charged against the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is charged or credited to the Statement of Financial Performance in the period that it occurs. These obligations are valued periodically by independent qualified actuaries.

1.13.2 Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the Municipality. The Municipality's obligation under these plans is valued by independent qualified actuaries annually and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued periodically, unless circumstances change significantly in which case it is done annually, by independent qualified actuaries.

1.13.3 Staff Leave accrued

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year-end and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Unused leave is being capped at 48 days.

Accumulated leave is vesting.

1.13.4 Staff Bonuses Accrued

Liabilities for staff bonuses are recognised as they accrue to employees. The liability at year end is based on bonus accrued at year-end for each employee.

1.13.5 Provision for Performance Bonuses

A provision, in respect of the liability relating to the anticipated costs of performance bonuses payable to Section 57 employees, is recognised as it accrues to Section 57 employees. Municipal entities' performance bonus provisions are based on the employment contract stipulations as well as previous performance bonus payment trends.

1.13.6 Pension and retirement fund obligations

The Municipality provides retirement benefits for its employees and councillors.

Defined contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund) and will have no legal

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year they become payable.

The defined benefit funds, which are administered on a provincial basis, are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities. The contributions and lump sum payments are recognised in the Statement of Financial Performance in the year they become payable. Sufficient information is not available to use defined benefit accounting for a multi-employer plan. As a result, defined benefit plans have been accounted for as if they were defined contribution plans.

1.13.7 Other Short-term Employee Benefits

When an employee has rendered service to the Municipality during a reporting period, the Municipality recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the undiscounted amount of the benefits, the Municipality recognises that excess as an asset (prepaid expense) to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

1.14. BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are not capitalised to the cost of that asset.

Under the benchmark treatment, borrowing costs are recognised as an expense in the period in which they are incurred, regardless of how the borrowings are applied.

1.15. PROPERTY, PLANT AND EQUIPMENT

1.15.1 Initial Recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. The cost of an item of property, plant and equipment is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost or fair value of the item can be measured reliably. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the Municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the assets acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the Municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

1.15.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

1.15.3 Depreciation and Impairment

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The annual depreciation rates are based on the following estimated useful lives:

Asset Class	Asset Sub-grouping	Useful Life (Yrs)
Land	None	Indefinite
Buildings	None	5 - 100
Infrastructure	Landfill Site	10 - 100
	Electricity	1 - 75
	Water	12 - 182

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Asset Class	Asset Sub-grouping	Useful Life (Yrs)
Community Assets	Roads	1-120
	Security Measures	1 – 50
	Cemeteries & Fencing	1 – 100
	Halls	5-100
	Library	5-100
	Buildings Other	5-100
	Parks and Gardens	1 – 50
	Sportfields and Stadia	1- 100
Leased Asset	None	3
Heritage	None	Indefinite
Other Assets	Computer Hardware	1 – 25
	Plant and Equipment	1 – 25
	Furniture and Other Office Equipment	1 – 40
	Markets	1 - 35
	Vehicles and Specialised Vehicles	1 – 55

Property, plant and equipment are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An Impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.15.4 De-recognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.15.5 Land and buildings and Other Assets – application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. For Land and Buildings the fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2010. For Other Assets the depreciation cost method was used to establish the deemed cost as on 1 July 2010.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.16. INTANGIBLE ASSETS

1.16.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

An asset meets the identifiability criterion in the definition of an intangible asset when it:

- is separable, i.e. is capable of being separated or divided from the Municipality and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable asset or liability, regardless of whether the Municipality intends to do so; or
- arises from binding arrangements from contracts, regardless of whether those rights are transferable or separable from the Municipality or from other rights and obligations.

The Municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the Municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the Municipality has the resources to complete the project;
- it is probable that the Municipality will receive future economic benefits or service potential; and
- the Municipality can measure reliably the expenditure attributable to the intangible asset during its development.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

1.16.2 Subsequent Measurement – Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairments losses. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.16.3 Amortisation and Impairment

Amortisation is charged so as to write off the cost or valuation of intangible assets over its estimated useful lives using the straight-line method. Amortisation of an asset begins when it is available for use, i.e. when it is in the condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are amortised separately. The estimated useful lives, residual values and amortisation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The annual amortisation rates are based on the following estimated useful lives:

<u>Intangible Assets</u>	<u>Years</u>
Computer Software	2 - 10
Computer Software Licenses	2 - 10

1.16.4 De-recognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.16.5 Application of deemed cost (Directive 7)

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, Issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. For Intangible Assets the depreciated replacement cost method was used to establish the deemed cost as on 1 July 2010.

1.17. INVESTMENT PROPERTY

1.17.1 Initial Recognition

Investment property is recognised as an asset when, and only when:

- it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the Municipality, and
- the cost or fair value of the investment property can be measured reliably.

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

At initial recognition, the Municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is measured at cost.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Municipality accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

1.17.2 Subsequent Measurement – Cost Model

Subsequent to initial recognition, items of investment property are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

1.17.3 Depreciation and Impairment – Cost Model

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

<u>Investment Property</u>	<u>Years</u>
Buildings	20 - 100

1.17.4 De-recognition

Investment property is derecognised when it is disposed or when there are no further economic benefits expected from the use of the investment property. The gain or loss arising on the disposal or retirement of an item of investment property is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.17.5 Application of deemed cost - Directive 7

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. The fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2010.

1.18. HERITAGE ASSETS

1.18.1 Initial Recognition

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and is held and preserved indefinitely for the benefit of present and future generations.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

A heritage asset is recognised as an asset if, and only if it is probable that future economic benefits or service potential associated with the asset will flow to the Municipality, and the cost or fair value of the asset can be measured reliably.

A heritage asset that qualifies for recognition as an asset, is measured at its cost. Where a heritage asset is acquired through a non-exchange transaction, its cost is deemed to be its fair value as at the date of acquisition.

1.18.2 Subsequent Measurement – Cost Model

After recognition as an asset, heritage assets are carried at its cost less any accumulated impairment losses.

1.18.3 Depreciation and Impairment

Heritage assets are not depreciated

Heritage assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.18.4 De-recognition

Heritage assets are derecognised when it is disposed or when there are no further economic benefits expected from the use of the heritage asset. The gain or loss arising on the disposal or retirement of a heritage asset is determined as the difference between the sales proceeds and the carrying value of the heritage asset and is recognised in the Statement of Financial Performance.

1.18.5 Application of deemed cost - Directive 7

The Municipality opted to take advantage of the transitional provisions as contained in Directive 7 of the Accounting Standards Board, issued in December 2009. The Municipality applied deemed cost where the acquisition cost of an asset could not be determined. The fair value as determined by a valuator was used in order to determine the deemed cost as on 1 July 2010.

1.19. IMPAIRMENT OF NON-FINANCIAL ASSETS

1.19.1 Cash-generating assets

Cash-generating assets are assets held with the primary objective of generating a commercial return.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Municipality estimates the asset's recoverable amount.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

In assessing whether there is any indication that an asset may be impaired, the Municipality considers the following indications:

(a) External sources of information

- During the period, an asset's market value has declined significantly more than would be expected as a result of the passage of time or normal use.
- Significant changes with an adverse effect on the Municipality have taken place during the period, or will take place in the near future, in the technological, market, economic or legal environment in which the Municipality operates or in the market to which an asset is dedicated.
- Market interest rates or other market rates of return on investments have increased during the period, and those increases are likely to affect the discount rate used in calculating an asset's value in use and decrease the asset's recoverable amount materially.

(b) Internal sources of information

- Evidence is available of obsolescence or physical damage of an asset.
- Significant changes with an adverse effect on the Municipality have taken place during the period, or are expected to take place in the near future, in the extent to which, or manner in which, an asset is used or is expected to be used. These changes include the asset becoming idle, plans to discontinue or restructure the operation to which an asset belongs, plans to dispose of an asset before the previously expected date, and reassessing the useful life of an asset as finite rather than indefinite.
- Evidence is available from internal reporting that indicates that the economic performance of an asset is, or will be, worse than expected.

The re-designation of assets from a cash-generating asset to a non-cash generating asset or from a non-cash-generating asset to a cash-generating asset shall only occur

when there is clear evidence that such a re-designation is appropriate. A re-designation, by itself, does not necessarily trigger an impairment test or a reversal of an impairment loss. Instead, the indication for an impairment test or a reversal of an impairment loss arises from, as a minimum, the indications listed above.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. Impairment losses are recognised in the Statement of Financial Performance in those expense categories consistent with the function of the impaired asset.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Municipality estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Financial Performance.

1.19.2 Non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Municipality estimates the asset's recoverable service amount.

In assessing whether there is any indication that an asset may be impaired, the Municipality considers the following indications:

(a) External sources of information

- Cessation, or near cessation, of the demand or need for services provided by the asset.
- Significant long-term changes with an adverse effect on the Municipality have taken place during the period or will take place in the near future, in the technological, legal or government policy environment in which the Municipality operates.

(b) Internal sources of information

- Evidence is available of physical damage of an asset.
- Significant long-term changes with an adverse effect on the Municipality have taken place during the period, or are expected to take place in the near future, in the extent to which, or manner in which, an asset is used or is expected to be used. These changes include the asset becoming idle, plans to discontinue or restructure the operation to which an asset belongs, or plans to dispose of an asset before the previously expected date.
- A decision to halt the construction of the asset before it is complete or in a usable condition.
- Evidence is available from internal reporting that indicates that the service performance of an asset is, or will be, significantly worse than expected.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

An asset's recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use. If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss is recognised in the Statement of Financial Performance.

The value in use of a non-cash-generating asset is the present value of the asset's remaining service potential. The present value of the remaining service potential of the asset is determined using any one of the following approaches, depending on the nature of the asset in question:

- *depreciation replacement cost approach* - the present value of the remaining service potential of an asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.
- *restoration cost approach* - the cost of restoring the service potential of an asset to its pre-impaired level. Under this approach, the present value of the remaining service potential of the asset is determined by subtracting the estimated restoration cost of the asset from the current cost of replacing the remaining service potential of the asset before impairment. The latter cost is usually determined as the depreciated reproduction or replacement cost of the asset, whichever is lower.
- *service unit approach* - the present value of the remaining service potential of the asset is determined by reducing the current cost of the remaining service potential of the asset before impairment, to conform with the reduced number of service units expected from the asset in its impaired state. As in the restoration cost approach, the current cost of replacing the remaining service potential of the asset before impairment is usually determined as the depreciated reproduction or replacement cost of the asset before impairment, whichever is lower.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

An impairment loss is recognised immediately in surplus or deficit, unless the asset is carried at a revalued amount in accordance with another Standard of GRAP. Any impairment loss of a revalued asset shall be treated as a revaluation decrease in accordance with that Standard of GRAP.

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If any such indication exists, the Municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for an asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. If this is the case, the carrying amount of the asset is increased to its recoverable service amount. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

impairment loss been recognised for the asset in prior periods. Such a reversal of an impairment loss is recognised in the Statement of Financial Performance.

1.20. INVENTORIES

1.20.1 Initial Recognition

Inventories comprise of current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost of the inventories can be measured reliably. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the Municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

1.20.2 Subsequent Measurement

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

The basis of allocating cost to inventory items is the weighted average method.

1.21. FINANCIAL INSTRUMENTS

Financial instruments recognised on the Statement of Financial Position include receivables (both from exchange transactions and non-exchange transactions), cash and cash equivalents, annuity loans and payables (both from exchange and non-exchange transactions) and non-current investments. The future utilization of Unspent Conditional Grants is evaluated in order to determine whether it is treated as financial instruments.

1.21.1 Initial Recognition

Financial instruments are initially recognised when the Municipality becomes a party to the contractual provisions of the instrument at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

the municipality, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

1.21.2 Subsequent Measurement

Financial assets are categorised according to their nature as either financial assets at fair value, financial assets at amortised cost or financial assets at cost. Financial liabilities are categorised as either at fair value or financial liabilities carried at amortised cost. The subsequent measurement of financial assets and liabilities depends on this categorisation.

1.21.2.1 Receivables

Receivables are classified as financial assets at amortised cost and are subsequently measured at amortised cost using the effective interest rate method.

For amounts due from debtors carried at amortised cost, the Municipality first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. Objective evidence of impairment includes significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue). If the Municipality determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics

and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the Statement of Financial Performance. Interest income continues to be accrued on the reduced carrying amount based on the original effective interest rate of the asset. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Municipality. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is recognised in the Statement of Financial Performance.

The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate, if material. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.21.2.2 Payables and Annuity Loans

Financial liabilities consist of payables and annuity loans. They are categorised as financial liabilities held at amortised cost, and are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.21.2.3 Cash and Cash Equivalents

Cash includes cash on hand (including petty cash) and cash with banks. Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, highly liquid deposits and net of bank overdrafts. The Municipality categorises cash and cash equivalents as financial assets carried at amortised cost.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities carried at amortised cost.

1.21.2.4 Non-Current Investments

Investments which include investments in municipal entities and fixed deposits invested in registered commercial banks, are stated at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognised in the Statement of Financial Performance.

The carrying amounts of such investments are reduced to recognise any decline, other than a temporary decline, in the value of individual investments.

1.21.3 De-recognition of Financial Instruments

1.21.3.1 Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Municipality has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Municipality has transferred substantially all the risks and rewards of the asset, or (b) the Municipality has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Municipality has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

retained substantially all the risks and rewards of the asset nor transferred control of the asset, the old asset is derecognised and a new asset is recognised to the extent of the Municipality's continuing involvement in the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Municipality could be required to repay.

When continuing involvement takes the form of a written and/or purchased option (including a cash settled option or similar provision) on the transferred asset, the extent of the Municipality's continuing involvement is the amount of the transferred asset that the Municipality may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the Municipality's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

1.21.3.2 Financial Liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the Statement of Financial Performance.

1.21.4 Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

1.22 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

1.22.1 Initial Recognition

Statutory receivables are recognised when the related revenue is recognised.

1.22.2 Measurement

The Municipality initially measures the statutory receivables at their transaction amount. The Municipality measure statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to reflect any:

- (a) interest or other charges that may have accrued on the receivable;
- (b) impairment losses; and
- (c) amounts derecognised.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

The Municipality assesses at each reporting date whether there is any indication that a statutory receivable may be impaired. If there is an indication that a statutory receivable may be impaired, the Municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

1.22.3 Derecognition

The Municipality derecognises a statutory receivable when:

- (a) the rights to the cash flows from the receivable are settled, expire or are waived;
- (b) the Municipality transfers to another party substantially all of the risks and rewards of ownership of the receivable; or
- (c) the Municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of the receivable to another party and the other party has the practical ability to sell the receivable in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the Municipality:

- (i) derecognise the receivable; and
- (ii) recognise separately any rights and obligations created or retained in the transfer.

1.23. REVENUE

1.23.1 *Revenue from Non-Exchange Transactions*

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Revenue from property rates is recognised when the legal entitlement to this revenue arises. At the time of initial recognition the full amount of revenue is recognised. If the Municipality does not enforce its obligation to collect the revenue, this would be considered as a subsequent event. Collection charges are recognised when such amounts are legally enforceable. Rebates and discounts are offset against the related revenue, in terms of iGRAP 1, as there is no intention of collecting this revenue.

Penalty interest on unpaid rates is recognised on a time proportionate basis as an exchange transaction.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the Municipality. Where public contributions have been received, but the Municipality has not met the related conditions, it is recognised as an unspent public contribution (liability).

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the Municipality.

All unclaimed deposits are initially recognised as a liability until 12 months expires, when all unclaimed deposits into the Municipality's bank account will be treated as revenue. Historical patterns have indicated that minimal unidentified deposits are reclaimed after a period of twelve months. This assessment is performed annually at 30 June. Therefore the substance of these transactions indicate that even though the prescription period for unclaimed monies is legally three years, it is reasonable to recognise all unclaimed monies older than twelve months as revenue. Although unclaimed deposits are recognised as revenue after 12 months, the Municipality still keep record of these unclaimed deposits for three years in the event that a party should submit a claim after 12 months, in which case it will be expensed.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

Revenue is measured at the fair value of the consideration received or receivable.

When, as a result of a non-exchange transaction, a Municipality recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the present obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability will be recognised as revenue.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.23.2 Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- The Municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- The Municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits or service potential associated with the transaction will flow to the Municipality.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

At the time of initial recognition the full amount of revenue is recognised where the Municipality has an enforceable legal obligation to collect, unless the individual collectability is considered to be improbable. If the Municipality does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

Service charges relating to electricity is based on consumption and a basic charge as per Council resolution. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Municipality was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period.

Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale. It is estimated that pre-paid electricity is consumed within 5 to 7 days after date of purchase. The pre-paid electricity sold, but not consumed yet at year-end is disclosed as under Payables from Exchange Transactions in the Statement of Financial Position.

Service charges relating to refuse removal are recognised on an annual basis in advance by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse points per property.

Interest revenue is recognised using the effective interest rate method.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods are passed to the consumer.

Revenue from the sale of goods is recognised when:

- Substantially all the risks and rewards in those goods are passed to the consumer; and
- The municipality seizes managerial involvement and control of the goods; and
- The amount of the revenue can be measured reliably; and
- It is probable that economic benefits or service potential associated with the transaction will flow to the municipality; and
- The costs incurred or to be incurred can be measured reliably.

Revenue arising out of situations where the Municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the Municipality as compensation for executing the agreed services.

Revenue is measured at the fair value of the consideration received or receivable.

The amount of revenue arising on a transaction is usually determined by agreement between the Municipality and the purchaser or user of the asset or service. It is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the Municipality.

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable.

However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

- The prevailing rate for a similar instrument of an issuer with a similar credit rating;
- A rate of interest that discounts the nominal amount of the instrument to the current cash sales price of the goods or services.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

When goods or services are exchanged or swapped for goods or services which are of a similar nature and value, the exchange is not regarded as a transaction that generates revenue. When goods are sold or services are rendered in exchange for dissimilar goods or services, the exchange is regarded as a transaction that generates revenue. The revenue is measured at the fair value of the goods or services received, adjusted by the amount of any cash or cash equivalents transferred. When the fair value of the goods or services received cannot be measured reliably, the revenue is measured at the fair value of the goods or services given up, adjusted by the amount of any cash or cash equivalents transferred.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.24. RELATED PARTIES

The Municipality resolved to formulate an accounting policy based on the disclosure requirements as per GRAP 20 – "Related Party Disclosures".

A related party is a person or an entity:

- with the ability to control or jointly control the other party,
- or exercise significant influence over the other party, or vice versa,
- or an entity that is subject to common control, or joint control.

The following are regarded as related parties of the Municipality:

- (a) A person or a close member of that person's family is related to the Municipality if that person:
 - has control or joint control over the Municipality.
 - has significant influence over the Municipality. Significant influence is the power to participate in the financial and operating policy decisions of the Municipality.
 - is a member of the management of the Municipality or its controlling entity.
- (b) An entity is related to the Municipality if any of the following conditions apply:
 - the entity is a member of the same Municipality (which means that each controlling entity, controlled entity and fellow controlled entity is related to the others).
 - one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of an Municipality of which the other entity is a member).
 - both entities are joint ventures of the same third party.
 - one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - the entity is a post-employment benefit plan for the benefit of employees of either the Municipality or an entity related to the Municipality. If the reporting entity is itself such a plan, the sponsoring employers are related to the entity.
 - the entity is controlled or jointly controlled by a person identified in (a).
 - a person identified in (a) has significant influence over that entity or is a member of the management of that entity (or its controlling entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by that person in their dealings with the Municipality. A person is considered to be a close member of the family of another person if they:

- (a) are married or live together in a relationship similar to a marriage; or
- (b) are separated by no more than two degrees of natural or legal consanguinity or affinity.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Management (formerly known as "Key Management") includes all persons having the authority and responsibility for planning, directing and controlling the activities of the Municipality, including:

- (a) all members of the governing body of the Municipality;
- (b) a member of the governing body of an Municipality who has the authority and responsibility for planning, directing and controlling the activities of the Municipality;
- (c) any key advisors of a member, or sub-committees, of the governing body who has the authority and responsibility for planning, directing and controlling the activities of the Municipality; and
- (d) the senior management team of the Municipality, including the chief executive officer or permanent head of the Municipality, unless already included in (a).

Management personnel include:

- (a) All directors or members of the governing body of the Municipality, being the Executive Mayor, Deputy Mayor, Speaker and members of the Mayoral Committee.
- (b) Other persons having the authority and responsibility for planning, directing and controlling the activities of the reporting Municipality being the Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms are disclosed.

1.25. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.26. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Municipality's Supply Chain Management Policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

(measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.27. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.28. CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measured with sufficient reliability. A Contingent asset usually arise from unplanned or other unexpected events that are not wholly within the control of the entity and give rise to the possibility of an inflow of economic benefits or service potential to the entity.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

Management judgement is required when recognising and measuring contingent liabilities and assets.

1.29. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

In the process of applying the Municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the annual financial statements:

1.29.1 *Post-retirement medical obligations and Long service awards*

The cost of post-retirement medical obligations and long service awards are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Major assumptions used are disclosed in note 3 of the annual financial statements. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

1.29.2 *Impairment of Receivables*

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.29.3 Property, Plant and Equipment

The useful lives of property, plant and equipment are based on management's estimation. Infrastructure's useful lives are based on technical estimates of the practical useful lives for the different infrastructure types, given engineering technical knowledge of the infrastructure types and service requirements. For other assets and buildings management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and residual values of property, plant and equipment.

- The useful life of movable assets was determined using the age of similar assets available for sale in the active market. Discussions with people within the specific industry were also held to determine useful lives.
- Local Government Industry Guides was used to assist with the deemed cost and useful life of infrastructure assets.
- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings. The Municipality also consulted with engineers to support the useful life of buildings, with specific reference to the structural design of buildings.

For deemed cost applied to other assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

The cost for depreciated replacement cost was determined by using either one of the following:

- cost of items with a similar nature currently in the Municipality's asset register;
- cost of items with a similar nature in other municipalities' asset registers, given that the other municipality has the same geographical setting as the Municipality and that the other municipality's asset register is considered to be accurate;
- cost as supplied by suppliers.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of an independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

1.29.4 Intangible Assets

The useful lives of intangible assets are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

Reference was made to intangibles used within the Municipality and other municipalities to determine the useful life of the assets.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

For deemed cost applied to intangible assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the asset.

1.29.5 Provisions and Contingent Liabilities

Management judgement is required when recognising and measuring provisions and when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

1.29.6 Investment Property

The useful lives of investment property are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their economic lives, and in what condition they will be at that time.

Management referred to the following when making assumptions regarding useful lives and valuation of investment property:

- The Municipality referred to buildings in other municipal areas to determine the useful life of buildings.
- The Municipality also consulted with professional engineers and qualified valuers to support the useful life of buildings.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of an independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

1.29.7 Revenue Recognition

Accounting Policy 1.23.1 on Revenue from Non-Exchange Transactions and Accounting Policy 1.23.2 on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as set out in GRAP 9: Revenue from Exchange Transactions and GRAP 23: Revenue from Non-Exchange Transactions.). Specifically, whether the Municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services are rendered, whether the service has been performed. The management of the Municipality is satisfied that recognition of the revenue in the current year is appropriate.

1.29.8 Provision for Landfill Sites

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. To the extent that the

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

obligations relate to an asset, it is capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are recognised in the Statement of Financial Performance.

Management referred to the following when making assumptions regarding provisions:

- Professional engineers were utilised to determine the cost of rehabilitation of landfill sites as well as the remaining useful life of each specific landfill site.
- Interest rates (investment rate) linked to prime was used to calculate the effect of time value of money.

1.29.9 Staff leave accrued

Staff leave is accrued to employees according to collective agreements. Provision is made for the full cost of accrued leave at reporting date. This provision will be realised as employees take leave or when employment is terminated. Unused leave is being capped at 48 days.

1.29.10 Provision for Performance bonuses

The provision for performance bonuses represents the best estimate of the obligation at year end and is based on historic patterns of payment of performance bonuses. Performance bonuses are subject to an evaluation by Council.

1.29.11 Pre-paid electricity estimation

Pre-paid electricity is only recognised as income once the electricity is consumed. The pre-paid electricity balance (included under payables) represents the best estimate of electricity sold at year-end that is still unused. The average pre-paid electricity sold per day during the year under review is used and the estimate is calculated using 5 days' worth of unused electricity.

1.29.12 Componentisation of Infrastructure assets

All infrastructure assets are unbundled into their significant components in order to depreciate all major components over the expected useful lives. The cost of each component is estimated based on the current market price of each component, depreciated for age and condition and recalculated to cost at the acquisition date if known or to the date of initially adopting the standards of GRAP.

1.29.13 Impairments of assets – Capitalised Restoration Cost

Impairment charges relating to capitalised restoration costs are linked to fluctuations in the discount rate used to unwind the provision relating to this asset. This discount rate is linked to the prime interest rate and any movement in this rate will result in the impairment/reversal of impairment of the asset.

EMALAHLENI MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

1.30. TAXES – VALUE ADDED TAX

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

1.31. CAPITAL COMMITMENTS

Capital commitments disclosed in the annual financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

1.32. EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the annual financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

If non-adjusting events after the reporting date are material, the Municipality discloses the nature and an estimate of the financial effect.

1.33. DISCONTINUED OPERATIONS

Discontinued operation is a component of the Municipality that has been disposed of and:

- represents a distinguishable activity, group of activities or geographical area of operations;
- is part of a single co-ordinated plan to dispose of a distinguishable activity, group of activities or geographical area of operations; or
- is a controlled entity acquired exclusively with a view to resale.

To qualify as a discontinued operation, the disposal must occur within a single co-ordinated plan. Once the disposal plan has been approved, the Municipality reclassifies all related assets and liabilities associated with the discontinued operations as a separate line-item in the Statement of Financial Position. The Municipality subsequently measures and account for assets and liabilities associated with discontinued operations in accordance with the respective Standards of GRAP applicable to that asset or liability.

All revenue and expenditure associated with the discontinued operations is disclosed as a one line-item in the Statement of Financial Performance. Detail of the revenue and expenditure associated with the discontinued operations is disclosed in the notes.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

2.2 Asset verification

The municipality undertook a full asset verification for this financial year reporting period. This process includes a number of processes, some of which are:

- Prior identification of all locations at which assets are located.
- Allocating areas to be counted to asset verification team members.
- Following systematic approach to ensure a full physical verification (assets should not be omitted or double counted).
- Verifying assets at the same time to ensure no movement takes place to cover irregularities and avoid any double counting or omissions.

After the verification process, assets are compared to the opening balances of the FAR to ensure the assets disclosed in the prior are included in the current year.

Some 185 movable assets out of a total movable asset database of 3022 have been included in the FAR as assets under review.

The LM had obtained Council approval to write off assets as part of the year procedures, however, due to the type of assets, the LM has resolved to write off these assets.

The AMU of the LM deem it prudent to follow a more detailed process to identify the reasons these assets could not be identified during the 2018/19 asset count.

These assets are summarised per class and value as follows:

Asset class	Number of assets	Cost price
Computers - hardware/equipment	18	48 392
Furniture and other office equipment	168	48 688
General vehicles	1	5
Plant & equipment	7	58 864
Grand Total	194	163 928

	2019 R	2018 R
2.3 Property, Plant and Equipment which is in the process of being constructed or developed:		
Infrastructure Assets	34 013 487	38 819 680
Roads	28 367 765	21 795 585
Electricity	7 474 417	7 474 417
Solid Waste	171 304	9 549 688
Community Assets	18 131 475	1 202 204
Other Assets	8 050 473	5 213 679
Total Property, Plant and Equipment under construction	58 195 435	45 235 463

The movements for the year can be reconciled as follows:

Balance at beginning of year	45 235 463	34 730 587
Expenditure during the year	43 588 131	32 278 504
Assets unbundled during the year	(21 088 488)	(21 773 628)
Asset derecognised	(9 549 688)	-
Balance at end of year	58 195 428	45 235 463

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	2019 R	2018 R
2.4 Property, Plant and Equipment that is taking a significantly longer period of time to complete than expected:		
Infrastructure Assets	7 474 417	7 474 417
Electricity	7 474 417	7 474 417
Total	7 474 417	7 474 417
<i>Due to unforeseen and unplanned events of public protests and unsatisfactory performance by the contractor the WIP projects took longer than anticipated. The contract with the contractor has since been terminated. The project has since been halted. Refer to note 2.5</i>		
2.5 Property, Plant and Equipment where construction or development has been halted:		
Infrastructure Assets	17 024 115	20 772 551
Roads	-	3 748 438
Electricity	7 474 417	7 474 417
Solid Waste	9 549 698	9 549 698
Total	17 024 115	20 772 551
<i>The project was incomplete because the service provider appointed to supply and deliver material did not complete the delivery of materials required. The project was then taken over by the municipality as an in-house project. The estimated outstanding material cost and labour according to initial quantities is R 1 190 840. The remaining work is estimated to be completed by 29 February 2019 using in-house construction team.</i>		
<i>The Lady Frere Landfill site has been put on hold indefinitely due to community protests against the development of the site. The land identified forms part of a land claim. Emalahleni Municipality will not proceed with development until a new area has been identified and agreed upon by the community.</i>		
<i>The municipality has assessed the potential to receive future economic benefits or service potential from the landfill site and has determined that the likelihood thereof is remote. As a result the municipality deemed it prudent to derecognise the landfill site.</i>		
2.6 Expenditure incurred to repair and maintain Property, Plant and Equipment:		
Employee related costs	-	1 197 161
Other materials	1 885 410	1 089 228
Contracted Services	3 283 335	1 816 579
Other Expenditure	-	16 981
Total Repairs and Maintenance	4 960 744	4 101 949
2.7 Assets pledged as security:		
<i>Leased Property, Plant and Equipment of R 737 891 (2018: R 1 139 876) is secured for leases as set out in Note 11.</i>		
2.8 Third party payments received for losses incurred:		
Payments received (Excluding VAT)	1 872 115	-

2+ months past due	6 349 188	2 142 456
	7 716 494	2 966 889

The provision for doubtful debts on debtors (loans and receivables) exists due to the possibility that not all debts will be recovered. Loans and receivables were assessed individually and grouped together at the Statement of Financial Position date as financial assets with similar credit risk characteristics and collectively assessed for impairment.

Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

Write offs	-	(80 519)
Balance at end of year	<u>19 126 500</u>	<u>16 876 078</u>

The total amount of this provision is R19 866 550 (2018: R 16 876 078) and consist of:

Taxes	19 126 500	16 876 078
Total Provision for Debt Impairment on Trade Receivables from non-exchange transactions	<u>19 126 500</u>	<u>16 876 078</u>

Ageing of amounts past due but not impaired:

1 month past due	589 908	185 990
2+ months past due	4 381 420	2 172 151
	<u>4 951 328</u>	<u>2 358 141</u>

The provision for doubtful debts on debtors (loans and receivables) exists due to the possibility that not all debts will be recovered. Loans and receivables were assessed individually and grouped together at the Statement of Financial Position date as financial assets with similar credit risk characteristics and collectively assessed for impairment.

Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

The outstanding fine receivable balance at year end is reduced to its recoverable amount by recognising a provision for impairment against the receivable raised. This is considered to be a subsequent event. The provision for impairment is based on current and past collection rates applicable to fines.

EMALAKLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	2019 R	2018 R
8. OPERATING LEASE ARRANGEMENTS		
8.1 The Municipality as Lessor		
Operating Lease Asset	50 939	68 449
Reconciliation		
Balance at the beginning of the year	68 449	76 480
Movement during the year	(17 510)	(10 031)
Balance at the end of the year	50 939	68 449
At the Statement of Financial Position date, where the municipality acts as a lessor under operating leases, it will receive operating lease income as follows:		
Up to 1 Year	99 885	110 327
1 to 5 Years	107 876	207 761
Total Operating Lease Arrangements	207 761	318 088

This operating lease income determined from contracts that have a specific condition income and does not include leases which has a undetermined conditional income.

	2019 R	2018 R
9. TAXES		
9.1 VAT Payable		
VAT Output in Suspense	(4 017 508)	(2 826 852)
Less: Contribution to Provision for Doubtful Debt Impairment	2 686 773	1 423 358
Total VAT Payable	(1 348 735)	(1 403 294)
9.2 VAT Receivable		
Less: Provision for Impairment	4 886 960	7 708 129
Total VAT Receivable	4 886 960	4 080 745
9.3 Net VAT (Payable)/Receivable	3 538 224	2 677 451

VAT is payable on the receipts basis. VAT is paid over to SARS only once payment is received from debtors.

An amount of R3 627 384 was impaired during 2018 which relates to VAT transactions preceding 2013, which, in accordance with Section 16(3) and Section 55 of the VAT Act of 1991 are not considered recoverable as the 5 year period has prescribed. Management is of the opinion that an impairment loss in this regard is appropriate as the balance has prescribed and will not be recovered

Reconciliation of Provision for Debt Impairment

12. NON-CURRENT PROVISIONS		
Provision for Rehabilitation of Landfill-sites	1 836 717	1 828 948
Total Non-current Provisions	1 836 717	1 828 948
	2019 R	2018 R
12.1 Landfill Sites		
Balance 1 July	12 207 164	11 210 331
Unwinding of discounted interest	604 816	996 833
Total provision 30 June	12 811 980	12 207 164
Less: Transfer of Current Portion to Current Provisions - Note 14	(10 975 263)	(10 380 218)
Balance 30 June	1 836 717	1 826 946

The estimated rehabilitation costs for each of the existing sites are based on the current rates for construction costs. The assumptions used are as follows:

The rate for the levelling layers are based on import requirement from commercial sources.
CCL replaced by GCL due to lack of good quality clay from on-site or nearby sources.
The rate for the confining and topsoil layers are based on importing from on-site or nearby sources.

Rehabilitation cost for the Indwe landfill is calculated for this report, based on assumptions described. Further confirmation of site closure requirements is expected to be detailed by DEDEAT, but until such time the site has been evaluated with the assumption that it must still be rehabilitated.

Detail of cost estimates:	Dordrecht	Indwe	Lady Frere
Area (m ²)	10 287	1 005	5 898
Preliminary and general (Rand)	620 802	79 302	391 825
Site Clearance (Rand)	31 684	3 095	20 630
Storm Water Control Measure (Rand)	807 825	233 965	646 375
Capping (Rand)	2 200 637	218 768	1 685 083
Gas Management (Rand)	-	-	15 451
Leachate Management (Rand)	305 153	100 266	221 812
Fencing (Rand)	999 712	10 333	10 333
Other costs (Rand)	374 090	788 076	344 459
Contingencies (Rand)	505 591	84 575	319 139
Engineering (Rand)	417 113	53 274	283 290
Site Supervision (Rand)	257 366	265 045	246 895

The municipality has an obligation to rehabilitate landfill sites at the end of the expected useful life of the asset. The estimate cost and date of decommission of the sites are as follows:

Location	Estimated decommission date	2019 R	2018 R
Lady Frere landfill site is located approximately 2.0km west off Indwe road R 394	30/06/2018	4 365 171	4 182 363
Dordrecht landfill site is located off R56 about 900m after the Dordrecht town to Queensdown Route	11/09/2018	6 610 092	6 187 855
Indwe landfill site is located east off R56 approximately 260m before the town of Indwe	31/12/2021	1 836 718	1 828 648
		12 811 980	12 207 164

13.1 Provision for Post Retirement Health Care Benefits		
The Post Retirement Health Care Benefit Plan is a defined benefit plan, of which the members are made up as follows:		
In-service (employee) members	99	92
In-service (employee) non-members	124	130
Continuation members (e.g. Retirees, widows, orphans)	1	2
Total Members	224	224
The liability in respect of past service has been estimated to be as follows:		
In-service members	5 612 019	3 743 586
In-service non-members	1 710 892	1 210 493
Continuation members	413 975	787 231
Total Liability	7 736 886	5 741 310
The liability in respect of periods commencing prior to the comparative year has been estimated as follows:		
		2017 R
In-service members		4 057 604
In-service non-members		1 408 838
Continuation members		1 000 819
Total Liability		6 466 462

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

The municipality makes monthly contributions for health care arrangements to the following medical aid schemes:

Bonitas,
Mediassist
LA Health
Samwumedi
Key health

The Current-service Cost for the ensuing year is estimated to be R851 419, whereas the Interest Cost for the next year is estimated to be R890 456

Key actuarial assumptions used	2019 %	2018 %
i) Rate of Interest		
Discount rate	8,80%	9,79%
Health Care Cost Inflation Rate	7,52%	7,51%
Net Effective Discount Rate	2,12%	2,12%

The discount rate used is a composite of all government bonds and is calculated using a technique known as "bootstrapping".

ii) Mortality rates

The PA 90 ultimate table, rated down by 1 year of age was used by the actuaries.

iii) Normal retirement age

It has been assumed that in-service members will retire at age 60 for females and 65 for males, which then implicitly allows for expected rates of early and ill-health retirement.

iv) Expected rate of salary increases

2018/2019 - Average CPI (Feb 2017 – Jan 2018) + 1.5 percent

	2019 R	2018 R

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	2019 R	2018 R
13.3 Retirement funds		
<p>The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.</p> <p>As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.</p> <p>Therefore, although the Cape Joint Retirement Fund is a Multi Employer fund defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosure has been made as defined in GRAP 25.31.</p> <p><u>CAPE JOINT RETIREMENT FUND</u></p> <p>The contribution rate paid by the members (9,0%) and Council (18,0%). The last statutory valuation performed as at 30 June 2017 revealed that the assets of the fund amounted to R21,359,000,000 (30 June 2016: R20,075,000,000), with funding levels of 127,3% and 100% (30 June 2016 118,0% and 100%) for the Pensions Account and the Share Account respectively. The Preservation Pension Account showed a surplus of R0 and was 100% funded for both 2017 & 2018. The contribution rate paid by the members (7,50%/9%) and the municipalities (10,50%/18%) is sufficient to fund the benefits accruing from the fund in the future. The actuary certified that the structure of the assets is appropriate relative to the nature of the liabilities, given normal circumstances and that the Fund is in a sound financial condition as at the valuation date.</p>		
Contributions paid recognised in the Statement of Financial Performance	6 220 816	5 438 888
	2019 R	2018 R
<u>DEFINED CONTRIBUTION FUNDS</u>		
<p>Council contribute to the Government Employees Pension Fund, Municipal Council Pension Fund, IMATU Retirement Fund and SAMWU National Provident Fund which are defined contribution funds. The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.</p> <p>Contributions paid recognised in the Statement of Financial Performance</p>		
State Pension Fund	364 214	367 416
Municipal Councilors Pension Fund	1 668 224	1 601 897
SAMWU National Provident Fund	941 492	888 225
	2 971 930	2 857 538
<p>The incorrect amount was disclosed in 2018 relating to contributions towards the Municipal Councilors Pension Fund. Above disclosure was therefore adjusted from R139 567 to R1 601 897</p>

18. PAYABLES FROM NON-EXCHANGE TRANSACTIONS		
Out of court settlement - Magwayl	10 567 503	-
Total Payables from Non-exchange Transactions	10 567 503	-
<u>Disclosed as follows:</u>		
Current liabilities	5 283 752	-
Non-current liabilities	5 283 751	-
Total	10 567 503	-

This court case has been settled on 26 June 2019 for an amount of R10 567 503.

The repayment terms are as follows:

Payment of the sum of R5 283 752 to be paid on or before 1 September 2019.

Payment of the sum of R5 283 752 on or before 1 September 2020, interest of this amount calculated at the legal rate

Due to the short term nature of the first payment, discounting is not deemed necessary as it is not material. The second payment accrues interest at the legal rate, and therefore discounting is also not deemed necessary in this regard.

A description of the matter is disclosed under note 49 - Contingent liabilities.

All payables are unsecured.

19. PROPERTY RATES		
<u>Actual</u>		
Rateable Land and Buildings	4 527 291	5 211 974
Business and Commercial Property	1 188 357	998 364
Public Benefit Organisations	834	-
Residential Properties	1 531 414	2 390 838
Vacant Land	177 535	-
State-owned Properties	1 077 645	942 129
Agricultural Property	551 508	692 645
Total Property Rates	4 527 291	5 211 974
<u>Valuations - 1 July 2018</u>		
Rateable Land and Buildings	1 494 327 840	1 120 527 494
Business and Commercial Property	186 673 303	126 135 382
Municipal Properties	34 063 400	14 821 700
Residential Properties	369 870 236	301 403 201
State-owned Properties	189 067 000	119 269 300
Agricultural Property	688 020 000	542 863 400
Exempt properties	26 431 701	18 134 501
Total Rateable Land and Buildings	1 494 327 840	1 120 527 494

Assessment Rates are levied on the value of land and improvements, which valuation is performed every 4 years. The last valuation came into effect on 1 July 2018. Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions and also to accommodate growth in the rate base due mostly to private development.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	2019 R	2018 R
Basic Rate		
Residential	0,00880	0,00923
Undeveloped land/Vacant land	0,00880	0,00823
Business	0,01020	0,01385
Government	0,01020	0,01385
Agriculture/Farms	0,00170	0,00231
Public Service Infrastructure	-	-
Public Benefit Organisation	0,00170	0,00231

Rates are levied annually and monthly. Monthly rates are payable by the 25th of the following month and annual rates are payable before 30 September. Interest is levied at the prime rate plus 1% on outstanding monthly instalments.

Rebates were granted on land with buildings used solely for dwellings purposes as follows:

Residential - The first R15 000 on the valuation is exempted.

Rebates can be defined as any income that the Municipality is entitled by law to levy, but which has subsequently been forgone by way of rebate or remission.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	2019 R	2018 R
Revenue recognised per vote as required by Section 123 (c) of the MFMA:		
Equitable share	115 774 000	115 992 000
Finance and Administration	3 756 716	2 345 000
Community & Social Services	18 100 228	900 000
Public Safety	7 078 254	-
Planning & Development	1 635 233	800 500
Road Transport	19 232 271	35 382 236
Waste Management	2 533 240	-
Total Government Grants and Subsidies	168 109 940	185 419 736

Based on the allocations set out in the Division of Revenue Act (DoRA), no significant changes in the level of government funding are expected over the forthcoming 3 financial years.

20.1 Equitable Share

Grants received	115 774 000	115 992 000
Conditions met - Operating	(115 774 000)	(115 992 000)
Conditions still to be met	-	-

The Equitable Share is the unconditional share of the revenue raised nationally and is being allocated in terms of Section 214 of the Constitution (Act 108 of 1996) to the municipality by the National Treasury.

	2019 R	2018 R
20.2 <u>Local Government Financial Management Grant (FMG)</u>		
Grants received	2 415 000	2 345 000
Conditions met - Operating	(2 415 000)	(2 345 000)
Conditions still to be met	-	-

The Financial Management Grant is paid by National Treasury to municipalities to help implement the financial reforms required by the Municipal Finance Management Act (MFMA), 2003. The FMG Grant also pays for the cost of the Financial Management Internship Programme (e.g. salary costs of the Financial Management Interns).

20.3 Municipal Infrastructure Grant (MIG)

Grants received	43 902 000	34 061 000
Conditions met - Operating	(1 345 187)	(1 703 050)
Conditions met - Capital	(42 556 813)	(32 357 950)
Conditions still to be met	-	0

The Municipal Infrastructure Grant was used to upgrade infrastructure in previously disadvantaged areas.

20.4 DEDEAT: Waste management grant

Grants received	3 000 000	-
Conditions met - Operating	(2 288 841)	-
Conditions met - Capital	(248 599)	-
Conditions still to be met	462 560	-

The DEDEAT Waste management grant was used for a waste management project that seeks to address these challenges within the Waste & Environment Sector and also address socio-economic dynamics of the Municipality.

	2019 R	2018 R
39. RECLASSIFICATION OF ITEMS IN THE FINANCIAL STATEMENTS AS A RESULT OF THE IMPLEMENTATION OF mSCOA		
<p>The Municipal Regulations on Standard Chart of Accounts (mSCOA) came into effect on 1 July 2017. The municipality implemented MSCOA during the 2019 financial year and has realigned items in the financial statements with the Item Segment of mSCOA. The result of this process was a reclassification and naming of items in the financial statements. The reclassification of 2018 audited amounts can be summarised as follows:</p>		
	Balance previously reported	Adjusted Balance
Statement of Financial Performance		
Revenue from Non-exchange Transactions		
<u>Taxation Revenue</u>		
Property Rates	5 211 974	5 211 974
<u>Transfer Revenue</u>

	2018 R	2017 R
40.3 NON-CURRENT EMPLOYEE BENEFITS		
Balance previously reported	(5 741 310)	(5 224 110)
Correction of incorrect policy used by actuaries for valuation	(1 336 112)	(1 244 352)
Restated Balance	(7 077 422)	(6 468 462)

At the last actuarial valuation, it was understood that the post-employment medical aid subsidy rate in respect of all eligible individuals was 60%. It was established at this valuation that the rate is 70% in respect of all individuals. Consequently the opening balance of Post Retirement Health Care Benefits was restated.

40.4 Accumulated Surplus/(Deficit) - 1 July 2017

Balance previously reported	408 406 314	414 858 273
Correction to Non-current Employee Benefits - Note 40.3	(1 244 352)	(1 244 352)
Correction to Employee related cost - Note 40.5	(205 049)	-
Correction to Contracted services - Note 40.1 and 40.2	239 686	-
Correction to Finance costs - Note 40.6	(124 007)	-
Correction to Actuarial gain - Note 40.7	237 296	-
Correction to Debt impairment - Note 40.8	856 759	-
Total	407 966 647	413 613 922

40.5 Employee related cost

Balance previously reported	(74 155 288)	(66 175 192)
Correction to Non-current Employee Benefits - Note 40.3	(205 049)	-
Total	(74 360 338)	(66 175 192)

At the last actuarial valuation, it was understood that the post-employment medical aid subsidy rate in respect of all eligible individuals was 60%. It was established at this valuation that the rate is 70% in respect of all individuals. The R205 049 represents the increase in current service cost for the 2018 financial year.

40.6 Finance costs

Balance previously reported	(1 713 472)	(1 383 144)
Correction to Non-current Employee Benefits - Note 40.3	(124 007)	-
Total	(1 837 479)	(1 383 144)

At the last actuarial valuation, it was understood that the post-employment medical aid subsidy rate in respect of all eligible individuals was 60%. It was established at this valuation that the rate is 70% in respect of all individuals. The R124 007 represents the increase in finance costs for the year.

40.7 Actuarial gain

Balance previously reported	609 208	1 278 548
Correction to Non-current Employee Benefits - Note 40.3	237 296	-
Total	846 504	1 278 548

At the last actuarial valuation, it was understood that the post-employment medical aid subsidy rate in respect of all eligible individuals was 60%. It was established at this valuation that the rate is 70% in respect of all individuals. The R237 296 represents the increase in actuarial gains for the year.

	2018 R	2017 R
40.8 Reversal of impairment loss / (impairment loss) on receivables		
REVERSAL OF IMPAIRMENT LOSS/(IMPAIRMENT LOSS) ON RECEIVABLES		
Balance previously reported	(7 792 887)	(2 327 348)
Correction to Taxes - Note 40.9	856 759	-
Total	(7 135 908)	(2 327 348)

During 2018 an allowance for impairment was recognised relating to old VAT balances older than 5 years. This allowance incorrectly included an amount of R856 759 relating to input VAT on retentions receivable. The error was discovered during 2019 and corrected by decreasing the impairment expense and increasing VAT receivable for 2019.

40.9 Reversal of impairment loss / (impairment loss) on receivables		
REVERSAL OF IMPAIRMENT LOSS/(IMPAIRMENT LOSS) ON RECEIVABLES		
Balance previously reported	2 020 892	9 680 050
Correction to Impairment - Note 40.8	656 759	-
Total	2 677 451	9 680 050

During 2018 an allowance for impairment was recognised relating to old VAT balances older than 5 years. This allowance incorrectly included an amount of R656 759 relating to input VAT on retentions receivable. The error was discovered during 2019 and corrected by decreasing the impairment expense and increasing VAT receivable for 2019.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

	2019 R	2018 R
43. BUDGET INFORMATION		
43.1 Explanation of variances between approved and final budget amounts		
<p>The reasons for the variances between the approved and final budgets are mainly due to variances, and the negative effect of the abnormal high electricity and solid waste tariff increases on consumer debtors, the decrease in the capital expenditure, and the reprioritising of capital projects, with the corresponding changes to funding sources.</p> <p>Explanation of variances greater than 5%: Final Budget and Actual Amounts</p>		
43.2 Statement of Financial Position		
43.2.1 Current Assets		
Cash		
<p>Balance Sheet budgeting was done incorrectly on the system. Amounts as contained in the original budget were incorrect due to incorrect use of signs on the system.</p>		
Call Investment Deposits		
<p>Balance Sheet budgeting was done incorrectly on the system. In the original budget the investment deposits were all captured under Cash and not split between the 2 categories.</p>		
Consumer Debtors		
<p>Balance Sheet budgeting was done incorrectly on the system. The original budget did not factor in the provision for bad debts and showed the gross amount</p>		
Other Debtors

EMALAHLEMI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

43.2.3 Current Liabilities

Trade and Other Payables

Balance Sheet budgeting was done incorrectly on the system. The actual amount was lower due to more suppliers submitting their invoices on time prior to year-end.

Payables from Non-exchange Transactions

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

Provisions

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

Current Employee Benefits

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

Unspent Transfers and Subsidies

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

Current Portion of Long-term Borrowings

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

43.2.4 Non-Current Liabilities

Borrowing

This was a result under budgeting for the line item.

Payables from Non-exchange Transactions

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

Provisions

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

Non-current Employee Benefits

Balance Sheet budgeting was done incorrectly on the system. Line item not provided for.

43.2.5 Net Assets

Accumulated Surplus/(Deficit)

Refer to reasons for variances under Statement of Financial Performance.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Statement of Financial Performance

43.2.6 Revenue

Property Rates

The estimated incremental amount for budgeting purposes was lesser than actual improved incremental amount.

Service Charges - Electricity Revenue

Difference considered reasonable

Service Charges - Refuse Revenue

The estimated demand in the second half of the year was not as high as in the first half, hence the under billing.

Rental of Facilities and Equipment

Slightly underbudgeted for Rentals based on low revenue for the first half of the year.

Interest Earned - External Investments

Lesser funds were invested due to lower funds available for investment due to quicker spending on existing projects.

Interest Earned - Outstanding Debtors

Difference considered reasonable.

Fines

Underperformance by the Traffic Department due to limited resources to perform law enforcement activities as they also perform daily tests at the station.

Licences and Permits

Improvement due to the Traffic Station being fully operational and increased number of people utilising it.

Agency Services

Difference considered reasonable

Transfers Recognised - Operational

Difference considered reasonable

Other Revenue

Underperformance was due to lower amounts recovered from the insurance for claims made in the current year.

Transfers Recognised - Capital

Difference considered reasonable.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

43.2.7 Expenditure

Employee Related Costs

Difference due to savings from unfilled and vacated posts.

Remuneration of Councillors

Difference considered reasonable.

Debt Impairment

Budget was based on prior years as it is difficult to accurately estimate this expenditure.

Depreciation and Asset Impairment

Budget was based on prior years as it is difficult to accurately estimate this expenditure.

Finance Charges

Finance Charges budgeted only related to the finance lease.

Bulk Purchases

Difference considered reasonable.

Other Materials

Savings as a result of stricter expenditure controls and cost containment measures.

Contracted Services

Savings as a result of stricter expenditure controls and cost containment measures.

Transfers and Grants

A court case was settled before year-end which was not budgeted for.

Other Expenditure

Savings as a result of stricter expenditure controls and cost containment measures.

Derecognition of assets

It was not anticipated that the landfill site will be derecognised.

Cash Flow Statement

43.2.8 Net Cash from Operating Activities

Taxation

Improved payment rate for Taxes as the statements were more accurate in the second half of the year.

Service Charges

Low collection rate experienced through the year.

Interest

This is the actual amount received from the bank, the budget also provided for collection from

Other Revenue

Various unexpected funds received including Insurance payouts.

Suppliers and Employees

Considered in line with the budgeted amounts.

Finance costs

Over provided based on prior years.

Transfers and Grants

Amount recorded under suppliers and employees as the amount was spent on goods and not issued in

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

43.2.9 Net Cash from Investing Activities

Proceeds on disposal of PPE

Non expected proceeds

Capital Assets

Incorrectly budgeted for in the budget.

43.2.10 Net Cash from Financing Activities

Repayment of Borrowing

Amount budgeted was based on prior year figures.

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

2019
R

2018
R

Irregular expenditure can be summarised as follow:

Incident	Disciplinary steps/criminal proceedings		
Service provider was contracted to advertise the municipality on their website without following SCM processes.	None	334 675	-
A service provider was paid in excess of the contracted amount without an approved variation order being in place.	None	-	94 584
An award was made to a supplier in service of the state who did not declare their interest. This was identified via Computer Assisted Auditing Techniques by the Auditor-General.	Written off by council during the Fifth Ordinary Council meeting on 30 May 2019, via resolution OCM 576/05/2019.	-	11 390
A contract was awarded to a supplier that did not comply with the minimum grading in terms of the Construction Industry Development Board	Written off by council during the Fifth Ordinary Council meeting on 30 May 2019, via resolution OCM 576/05/2019.	-	9 956 185
Awards were made to suppliers where the Bid adjudication committee did not compose of the required number (4) of senior managers as required by Supply Chain regulation 28(2).	Written off by council during the Fifth Ordinary Council meeting on 30 May 2019, via resolution OCM 576/05/2019.	-	5 320 664
Award for Bid number: ELM/2/9/2017Q (Appointment of an accredited service provider to train ward committees on displaying understanding of core municipal processes & committee participation) was evaluated without considering functionality according to the predetermined specification.	Written off by council during the Fifth Ordinary Council meeting on 30 May 2019, via resolution OCM 576/05/2019.	-	180 203
The municipality followed Section 18 of the Municipal Supply Chain Regulations by advertising the quotations for 7 days. The municipality however failed to obtain 3 quotations as required by Section 17 of the Municipal Supply Chain Regulations. No approved deviation was in place. This is due to a different interpretation of the regulations by the municipality and Auditor-General.	None	1 061 664	-
A COGTA investigation report recommended that the amounts paid in relation to Bid number ELM/2/11/2017T be regarded as irregular expenditure.	None	-	4 008 027
		1 396 359	19 568 060

Irregular expenditure of R4 100 611 relating to the 2017/18 financial year was discovered during the 2018/19 financial year. The irregular expenditure for 2017/18 was therefore restated to include this amount.

Recoverability of all irregular expenditure will be evaluated by Council in terms of section 32 of MFMA. No steps have been taken at this stage to recover any monies.

44.4 Awards to suppliers in service of the state

R

45. FINANCIAL RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

(a) Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions.

(b) Price Risk

The municipality is not exposed to price risk.

(c) Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the entity calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.

EMALAHLEN MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

	2019 R	2018 R
The potential impact on the entity's surplus/(deficit) for the year due to changes in interest rates were as follow:		
1% (2018: 1%) Increase in interest rates	33 652	(39 899)
0.5% (2018: 0.5%) Decrease in interest rates	(16 826)	19 949

(d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the Municipality to incur financial loss.

Credit risk arises mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidies.

Trade and other receivables are disclosed net after provisions are made for impairment and bad debts. Trade receivables comprise of a large number of ratepayers, dispersed across different sections and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Credit risk pertaining to trade and other receivables is considered to be moderate due to the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

The credit quality of receivables are further assessed by grouping individual debtors into different categories with similar risk profiles. The categories include the following: Bad Debt, Deceased, Good payers, Slow Payers, Government Departments, Debtors with Arrangements, Indigents, Municipal Workers, Handed over to Attorneys and Untraceable account. These categories are then impaired on a group basis based on the risk profile/credit quality associated with the group.

All rates and services are payable within 30 days from invoice date. Refer to note 6 and 7 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms.

The provision for bad debts could be allocated between the different classes of receivables as follow:

	2019 %	2019 R	2018 %	2018 R
<u>Non-exchange Receivables</u>				
Rates	28,78%	19 126 500	28,31%	16 876 078
<u>Exchange Receivables</u>				
Services	73,21%	52 257 158	71,69%	42 727 516
	100,00%	71 383 658	100,00%	59 603 594

No receivables are pledged as security for financial liabilities.

Due to short term nature of trade and other receivables the carrying value disclosed in note 5 and 7 of the financial statements is an approximation of its fair value. Interest on overdue balances are included at prime lending rate plus 1% where applicable.

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

<u>Amounts of amounts past due but not impaired are as follows:</u>	Exchange Receivables	Non-exchange Receivables
2019		
1 month past due	1 366 308	589 808
2+ months past due	6 349 186	4 381 420

	2 966 891	2 358 041

The entity only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The entity only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below.

The banks utilised by the municipality for current and non-current investments are all listed on the JSE (First National Bank and Standard Bank). The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low.

The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default.

Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

	2019 R	2018 R
Financial assets exposed to credit risk at year end are as follows		
Receivables from exchange transactions	63 571 093	4 014 264

Cash and Cash Equivalents	4 144 470	5 868 415
	92 016 811	15 793 184

EMALAHLENI MUNICIPALITY

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

(e) Liquidity Risk

Prudent liquidity risk management includes maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the treasury maintains flexibility in funding by maintaining availability under credit lines.

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

	Less than 1 year	Between 1 and 5 years	Between 5 and 10 years	More than 10 years

NOTES ON THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

49. CONTINGENT LIABILITY	2019 R	2018 R
The municipality is currently engaged in litigation which could result in damages/costs being awarded against Council if claimants are successful in their actions. The following are the estimates.		
<i>Description of event</i>		
Summons was issued against Emalahleni Municipality by W Mkyanya. The Plaintiff, Mr Mkyanya, has sued the Municipality for damages based on non-compliance with the contract of employment by the employer. The matter was set down for trial in the Mthatha High Court in June 2016. The matter was postponed during the hearing on the 9th of June 2016 and a cost order was granted against the Plaintiff. During December 2017 certain properties of the Plaintiff were attached and subsequently sold on auction. An amount of R40 000 00 was realised from the auction. The matter was handled by SLC Attorneys because it was a pending matter before their contract with the Municipality expired.	-	3 191 000
Magwayi vs Emalahleni Local Municipality: The Plaintiff is suing on behalf of the minor child, who was electrocuted at the Dodrecht sub-station. The Plaintiff is suing for damages based on the negligence of the Municipality to properly secure the substation. The Plaintiff is suing for an amount of R3,500 000.00 in damages. All papers have been exchanged between parties. The matter is set down for trial in August, pending negotiations between the parties. This matter has been settled for an amount of R10 587 503. A payable has been recognised for this amount and therefore no contingent liability exists at 30 June 2019. Refer to note 18.	-	4 000 000
Vatela vs Emalahleni Local Municipality: The Municipal Manager and Director Corporate services took the Municipality to court after council rescinded their appointment. Council had rescinded that decision. Matter is still in court.	400 000	300 000
N Ngqola vs Emalahleni Local Municipality. Reclaiming attached vehicle that has been sold.	250 000	-
Ngqola vs Emalahleni Local Municipality. Spoliation order application on electricity supply disconnection.	150 000	-
Mlungwana vs Emalahleni Local Municipality. Spoliation order application on electricity supply disconnection.	150 000	-
Njuze vs Emalahleni Local Municipality Labour court claim for compensation for work allegedly done while acting in another post.	1 500 000	-
Martinus Grobler vs Emalahleni Local Municipality. Claim for payment for services allegedly rendered to the municipality.	70 000	-
Claims against Council	2 620 000	7 491 000
CONTINGENT ASSETS		
A fraud case against employees amounted to R332 186.94 is in the process of investigation and mitigation.	322 187	322 187
Claims by Council	322 187	322 187

50.5 Other related party balances

The following outstanding balances exist at year-end where Councilors or staff have an interest:

Company Name	Related Party	Service Capacity		
Universal Garage	P. Greyling	Councillor	7 557	50 029
Khazimla Holdings (Pty) Ltd	NM. Ziduli	Councillor	-	12 125
			7 557	62 154

51. FINANCIAL SUSTAINABILITY

Management is of the opinion that the municipality will continue to operate as a going concern and perform its functions as set out in the Constitution.

The indicators or conditions that may, individually or collectively, cast significant doubt about the going concern assumption are as follows:

Financial indicators

The current ratio decreased to 0.55:1 from 0.58:1 in the prior year.

The municipality has budgeted for a surplus of R7 569 000 for the 2018/2019 financial year. The municipality is also budgeting for negative cash flows during 2018/2019 and 2019/2020 amounting to R11 562 000 and R5 086 000 respectively.

The average debtors' payment days decreased to 352 days from 748 days. Even though this is a significant increase, it is considerably below the expected 30 days. The debtors' impairment ratio increased to 87% from the previous years 86%.

Other indicators

Possible outflow of resources due to the contingent liability disclosed in note 49.
